invites you to apply to the

ESSENTIALS PROGRAM IN PSYCHOANALYSIS A Seminar-based Certificate Program

This program is open to anyone interested in gaining a foundational understanding of psychoanalytic theories and their application to practice. The program also provides a solid base for those considering further psychotherapy and psychoanalytic training through TICP.

Among the topics covered in weekly two-hour seminars:

Introduction to the Psychoanalytic Frame of Reference
Analytic Attitude
Analytic Listening
Attachment Theory
Character
Concepts of Development
Unconscious Dynamics
Relationality
Concepts of Change
Empathy and Mentalization
Transference & Countertransference
Motivations and Drives
Contemporary Perspectives on Psychopathology
Psychoanalytic Interventions

The final six seminars are devoted to case presentations and are led by senior clinicians. Class members working in a psychoanalytically informed way will have the opportunity to present cases for discussion.
